Abstract (Basic): *FR 2816506* A1
        NOVELTY - Cosmetic or dermatological composition other than
    deodorant or antiperspirant stick comprises oil phase thickened with
    solution of polyamide in hydroxyacid ester solvent.
        USE - The composition is useful as protective, treatment, make-up
    or sunscreen product for nails, eyes, hair or skin, in form of shampoo,
    lotion, gel, mousse, emulsion, dispersion, varnish, stick or hair
    lacquer, especially as transparent lipstick, lip gloss or lip balm.
        ADVANTAGE - The polyamide solution forms transparent gels with wide
    range of oils.
